

PINEWOOD PATTEN

August, 2016

August Birthdays

We would like to wish a
Happy Birthday to:

Madeline Knepper 18th
Hayden Grooms 25th
Joseph Troendle 29th
Blake Jones 29th

Weather

Although we have had some heat, the rain has been very timely this summer. The weeds have gone crazy in my yard, but there is not much one can do other than mow, trim and pull. No complaining here. It is better that shoveling snow!

Labor Day

The Pinewood Office will close on Monday, September 5th in observance of Labor Day. All rent payments will be due by Tuesday, September 6th.

Post Office

I noticed a box left open in the post office last week. Please report this to the office if you happen to notice someone forgot.

We would like to welcome:

- Cody Olson to 23822 Westwood Road.
- Craig and Malissa Freeman, and their sons Colton and Peyton to 12096 Park Ridge Drive.
- Doreen Backler to 12073 Park Ridge Drive
- Katilyn Trim to 12097 Evergreen Drive.
- Jessica Goss, Zachary Christian, and his son Ylias to 23832 S. Cedar Drive
- Steve Fore, Gabby Myers, and her daughter Evalyn to 23643 Pinewood Road.

First Day Back To School

is Thursday, September 1st

Trash

Hilltopper has missed trash pick-up on North Forest Drive a few times in July. Please call them if they miss you. 783-6727

New Homes

Colleen McCann and Chris Mikunda placed a new home at the end of Eastwood Road in July and three new homes are schedule to arrive yet this fall. It's great to see the neighborhood filling up!

Boat and RV Storage

Several residents have their boats and camper stored directly west of the Clubhouse and Fitness Center. This location is going to be the future site of storage building for our equipment. The storage area for RV's is going to be relocated to the well property directly behind where they are currently stored. The Village is no longer using the well and the land we gave them for the well facility so they are going to give it back to us. Of course nothing happened quickly - so stand by to stand by. We are hoping to have it built before the snow flies.

Moles

The moles have been doing a number on many lawns. The hoop style mole traps have been pretty effective. We have two of them rotating around the park, or Farm and Fleet carries them as well.
