Trimming – Cutting

Paul has been very busy this summer catching up on tree maintenance around the park. His focus has been on dead and dying trees. Some of you have been asking why some trees are dying. Answer: It's the cycle of life and in some cases, too much fertilizer. We had some soil tested near dying trees and the cause of death was over-fertilization. Red pines can't handle large amounts of fertilizer.

Trimming

Park rules require tenants to mow and trim on a regular basis. We recently trimmed grass on some sites around the park because this was not being taken care of properly. Cost is \$5 per time ó or you can borrow our trimmer for free!

Village Update

The Village of Trempealeau is actively searching for a new Village Administrator. Current plans are to utilize business and community members in the final selection process. All involved have stressed the importance of finding a candidate who:

- Is professional
- Is committed to high ethical standards
- Promotes equity and fairness for all
- Is knowledgeable, and
- Excels in conflict-resolution skills

One board member is also very committed to defining the duty of board members and is insistent that they all become more involved.

Regarding Pinewood ó the Village understands we are not okay with their decision to deny services in Pinewood and this situation needs to be re-visited. That being said ó they are currently overwhelmed and we are giving them time to get a new administrator on board.
